

ProModel Corporation Names COL (Ret) Pat Sullivan as Vice President of Army Programs

Sullivan brings over 28 years of experience in Army Supply Chain and Program Management.

Allentown, PA – October 3, 2013 - ProModel Corporation, a leading provider of predictive analytic simulation software and business intelligence solutions, today announced the appointment of Col (Ret) Pat Sullivan as the company's new Vice President of Army Programs. ProModel provides COTS and custom predictive analytic solutions for the US Army as well as the other branches of the military.

Mr. Sullivan comes to ProModel from his most recent success as the Commander of LOGSA (Logistics Support Activity), the Army's authoritative source for logistics data, intelligence, life cycle support, and technical advice. At LOGSA, Mr. Sullivan directed the development and rollout of logistics software applications, including ProModel's custom designed LMI DST-SM for LOGSA.

Keith Vadas, ProModel President and CEO, states "We are very pleased to welcome Pat to ProModel and are excited to have his professional experience and talent on board as we continue to offer dynamic decision support solutions to the Army."

Mr. Sullivan has over 28 years of experience in Army and Joint expeditionary supply chain and program management command and staff positions in organizations up to 5,200 professional being responsible for executing over \$4.0 B in contracts and operations funding. He has commanded Army logistics units in combat and has demonstrated expertise in strategy development and execution, and management of contingency supply chain operations. Sullivan is a graduate of Eastern Kentucky University (BBA), University of St Mary's (MS) and Columbia University (MA).

Sullivan remarked "I am excited to be on board with ProModel and am looking forward to representing this exceptional company as we deliver quality products to the military."

About ProModel
